LOHITH JALLIPALLI

Hyderabad, India | lohithjallipalli@gmail.com | +91-8919539142 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Aspiring Software Engineer with a B.Tech in Artificial Intelligence & Data Science, strong foundations in programming, data structures, algorithms, and full-stack development. Seeking to build scalable software while contributing to collaborative engineering teams and continuously expanding technical expertise.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science — CGPA: 8.64 **2022 – 2026**

Guru Nanak Institutions Technical Campus, Hyderabad, India

CBSE Class XII (MPC) — 91% | CBSE Class X — 95% **2019 – 2022**

Sai Spurthi DAV School, Sathupally, India

SKILLS

• Programming Languages: Java, C, C++
• Databases: SQL, MongoDB
• Web Technologies: HTML, CSS, JavaScript, React.js, REST APIs
• Platforms: ServiceNow (Administration,Scripting,Integration
• Tools & IDEs: Git, GitHub, VS Code, IntelliJ IDEA, Jupyter Notebook, Power BI, Microsoft Excel
• Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems

EXPERIENCE

Intern — EY Edunet Foundation **Feb 2025 – Mar 2025**

- Coordinated with a project team to track deadlines, manage budget analysis, and report progress for an internal project management application (PRO-MAN).
- Organized and documented project requirements and feature updates for internal stakeholders.
- Contributed to building a more usable, responsive interface, improving day-to-day team reporting workflows.

TRAINING

ServiceNow Trainee| BHEL RPL Foundation **Aug 2026 – Oct 2026**

- Completed **165** hours of instructor-led training in ServiceNow Administration, Scripting, and ITSM Fundamentals.
- Worked on Service Catalog and workflow exercises involving request fulfillment, task assignments, and email's.
- Gained hands-on practice with Business Rules, Client Scripts, UI Policies, and Reference Qualifiers to understand form behavior and platform scripting, Integrations.
- Configured knowledge articles and categories, and created reports and visualizations to monitor incident records.

PROJECTS

Project Management Application (PRO-MAN) — MERN Stack| Live Demo | Git-Hub

- Developed a MERN-based project management application with task assignment, progress tracking, and authentication, enabling efficient collaboration for **10+ users**.
- Built secure REST APIs and optimized MongoDB queries, reducing average task retrieval time by **25%**.

LeaveFlow – Leave Management Application | PDI | Git-Hub

- Created custom scoped tables with custom forms , choices for leave types, and automated duration calculations.
- Configured role containment hierarchy **(admin > manager > employee)**, table- and field-level **ACLs** & **Business rules**.
- Developed client-callable server-side **Script Includes** for date overlap checks.Implemented Client scripts, UI Actions, UI policies& built Flows for leave submission and approval processes. Integrated a public-holiday **REST API (Nager.date)** .

CERTIFICATES

- EY Global Delivery Services & AICTE — Internship Completion Certificate (MERN Stack Developer)
- ServiceNow Trainee SSSSO Certificate
- Duolingo English Test Certificate — Score-130/160
